## Editor's Notes

The following list of references has been compiled from various sources on the Web, including several search services, specialized databases, and journal and author homepages. If you note inaccuracies or omissions, please let me know and the correct version will appear in the next number of *MONOCULUS*. Grateful thanks to the donors of reprints to the Monoculus and Wilson libraries.

The year of publication as given refers to the year in which the printed version of the journal was distributed, and not the year when it first became available online, if these are different.

This supplement will be posted in pdf format on the

WAC website. For their convenience, WAC members may request a copy of the file from me. I will send it as an e-mail attachment in Word.

Paulo Corgosinho, Hendrik Gheerardyn, Pedro Martínez Arbizu, Ahmet Öktener, Nelson dos Santos-Silva, and Carlos Varela graciously provided literature references and, in some cases, reprints. Other colleagues including Peter Heuch and Tomiko Ito have donated reprints of articles which were listed in previous numbers, to the Monoculus and Wilson libraries.

Translations of titles in languages other than English (if not given by the source) are provided by the management.

— Jan Reid

## Plea for Reprints

Please send reprints of your articles to the Monoculus-Library and to the C. B. Wilson Copepod Library! Both paper copies and pdf files are welcome.

To the Monoculus-Library:

## Recent Publications on Copepoda

Compiled by Jan Reid and Chad Walter  
(National Museum of Natural History, Washington,  
D.C., U.S.A.)

Older publications that were recently listed in the "World of Copepoda" bibliographic database (C. B. Wilson Library) are included. Please advise us if you learn of publications (including theses and "gray literature"), on any aspect of the Copepoda, that are not held in the Monoculus Library or listed in the "World of Copepoda" database.
